

Return & Refund Policy

Effective Date: September 8, 2026

Thank you for using Mahalco. Mahalco provides online engineering calculation tools, software services, API access, subscriptions, and related digital services.

Because our products are primarily digital services and subscriptions, the following return and refund policy applies.

1. Digital Products and Online Services

Mahalco products are delivered digitally through our website or API. Because digital services can be accessed and used immediately after purchase, purchases are generally **non-refundable once the service has been accessed or used**.

Before purchasing, customers are encouraged to review the product description, available documentation, pricing, and applicable usage limits.

2. Subscription Plans

For monthly subscription plans, customers may cancel their subscription at any time by contacting Mahalco.

Cancellation will normally prevent the next renewal. Unless otherwise required by applicable law, cancellation does not automatically provide a refund for the current billing period.

3. Duplicate or Accidental Charges

If you believe you were charged more than once for the same service, or that a payment was processed incorrectly, please contact us.

We will review the transaction and, where appropriate, issue a refund for a verified duplicate or erroneous charge.

4. Technical Problems

If a purchased Mahalco service cannot reasonably be used because of a technical problem attributable to Mahalco, please contact us as soon as possible.

We may, at our discretion:

- Resolve the technical problem;
- Extend the customer's access period;
- Provide replacement access; or
- Issue an appropriate refund where the service cannot be provided.

5. API Services

API subscriptions and API usage are digital services. Fees associated with API access or usage are generally non-refundable after the API has been accessed or used.

If you experience a significant technical problem with your API subscription, contact us so that we can investigate the issue.

6. Free Trials

Where Mahalco offers a free trial, customers may use the trial during the period specified when signing up.

A free trial does not create an entitlement to a refund because of unused trial time.

7. Refund Requests

To request a refund or report a billing problem, contact Mahalco with:

- Your name;
- The email address associated with your purchase;
- The date of purchase;
- The product or subscription involved; and
- A brief description of the issue.

Please do not send passwords, API keys, payment-card numbers, or other confidential credentials by email.

8. Refund Processing

When a refund is approved, it will generally be returned through the original payment method. The time required for the refund to appear in your account may depend on the payment provider or financial institution.

9. Changes to This Policy

Mahalco may update this Return & Refund Policy from time to time. The latest version published on this website will apply to future purchases.
